J. PROCTOR KNOTT

NOMINATED FOR GOVERNOR, AND CAPT. J. H. HINDMAN, FOR LIEUTENANT GOVERNOR.

The Democratic State Convention to nominate State officers met at Louisville on Wednesday. Hon. Isaac Caldwell, of Louisville, was chosen Chairman. The first ballot stood: Jones 203, Knott 191, Buckner 143, Owens 110, Jacob 90. The second and third ballots were the same as the first. At the conclusion of third ballot the name of Charles D. Jacob was withdrawn. On the sixth ballot the vote was as follows: Knott 233, Jones 227, Buckner 171, Owens 104.

The Convention passed a resolution dropping the candidate receiving the lowest number of votes on the seventh ballot and each succeeding ballot until a nominee was reached.

Proctor Knott was nominated for Governor. Knott was nominated on the seventh ballot by acclamation and the wildest confusion. Three hours were consumed in taking the seventh ballot. Owens and Buckner were withdrawn early in the morning. At the close of the seventh ballot Jones was ahead of Knott, but Owens county went over to Knott and was at once followed by others. Jones' name was then withdrawn and Knott nominated by acclamation. It was the hardest fought Convention ever held in Kentucky.

The change in Owen county gave Knott a majority of four-fifths of a vote. The pseudonym was kept up, and there were a number of further changes or attempts at changes. A delegate from Hopkins changed his individual vote from Knott to Jones. Fayette county now announced eight votes for Jones and four for Knott. Henry county then declared she cast six votes for Knott, and the Fourth district of Louisville announced one more vote for Knott. Mr. Todd, from Madison county, changed his vote from Jones to Knott. There were other changes, but nobody could catch what they were. It was apparent, however, that Knott was several votes ahead, and amid great excitement Mr. R. W. Nelson, of Campbell, withdrew the name of Col. Thomas L. Jones. Mr. James W. Bryan, of Kenton, one of Col. Jones' strongest supporters, followed with another speech, withdrawing his name, and seconded Mr. Nelson's motion, that the nomination of Knott be made unanimous. The nomination was declared unanimous at 105 p. m., and the vote was over.

Last night Capt. J. R. Hindman, a gallant ex-Federal soldier, defeated Capt. C. T. Allen, a gallant ex-Confederate, for Lieutenant Governor. No other nominations.

THE THOMPSON TRIAL.

THE JURY FIND A VERDICT OF "NOT GUILTY."

The jury in the case of the Commonwealth against Phil Thompson for killing Walter Davis, after being in their room one hour, brought in a verdict of "not guilty."

Thompson's defense was self defense and emotional insanity, and the jury based their verdict on the latter defense. On the first vote of the jury, nine stood for guilty and three were non-committal. When the verdict was read Phil Thompson, exclaiming: "Thank God, the virtue of our wives is protected!"

Hons. Dan. Vorhees and Jo Blackburn made the best speeches for the defense. We hope that the Commonwealth's Attorney will take the case to the Court of Appeals to settle the question of evidence of insanity in the case. The defendant cannot be tried again, but as this is the first case of the kind that has happened in this State, it should be adjudicated upon by a higher tribunal.

It would not be amiss now for the shotgun enthusiasts to assemble in convention now and form a new party by nominating Phil Thompson for Governor, and Tom Buford for Lieutenant Governor. Charlie Ford, who shot Jesse James in the back of the head, could so naturalize himself in a day or two as to accept most any position on the State ticket.

BATTERTON & JAMES have had their billiard and pool tables remodeled and put in all of the latest styles, and all lovers of those sports should call and try them. They have just received ten barrels of Barton & Shawhan's five-year-old whisky, and also a large stock of choice cigars.

The Barrenness.

Probably the greatest fish of the Southern waters is the barracuda, and the small ones are about two feet long, that are found in shoals and reefs. The sport to him who has the requisite skill to catch them. The barracuda is long, slender, and tapers to a point, like a pike-like fish. The largest ones, weighing one hundred pounds, are caught by trolling, but the true way to take the barracuda is with the spear. Only a few amateurs can claim the honor. The writer's first experience was with Bill King, a noted fisherman of the reef. The boat, a small dingy, was provided with a pair of gaffs consisting of a yellow pine rod about eighteen feet long that bent well when held; the spear or grays was two-pronged, the barbs set slightly inward. This and a cork ten feet long with a white rag attached, constituted the outfit. The spearman slowly sculled the boat along with his left hand, holding the dingy steady against the sun, the method soon became apparent. The rag attracted the barracuda's curiosity, and as the sun was supposed to blind it to any motion in the water. We had gone a quarter of a mile up a dead blue reef, and the barracuda was seen. The sculler quipped his fish, and the barracuda was seen. The sculler quipped his fish, and the barracuda was seen. The sculler quipped his fish, and the barracuda was seen.

Autograph-Hunters' Ways.

The humble enthusiasts who collect contemporary autographs are a sore trial to the patience and morality of the people. They are not only malicious, but they are also determined. Not long ago a determined autograph-hunter, by his often coming, like that of a dog, to the door of a woman, "drew" the autographs of nearly all famous contemporary Englishmen. He had a small book in which he wrote down the names of the autograph-hunters. School boys are usually most persistent in this form of sport. It was once a school boy who won the most difficult and "exclusive" autograph of all by pretending to be a shipman who wanted to christen a vessel after a great man, and who asked his permission. Persecution of this sort is excessive. Granted to the budding literature who is carefully nursing a feeble reputation by judicious paragraphs of gossip in the literary papers. But to the man of established fame the letters of the autograph-hunter are as disagreeable as the letters of a beggar. The autograph-hunter is a man who is always on the lookout for a signature, and he is always on the lookout for a signature, and he is always on the lookout for a signature.

The Sleep That Men, Women and Children Should Have.

"I do not think a person should be waked at morning, and for this reason when a man falls asleep he is in the arms of the goddess of sleep. His frame and all its intricate machinery is being overhauled and repaired. Nature is doing that herself. The man who wakes himself up at the first alarm of the clock is like a man who wakes himself up at the first alarm of the clock. The man who wakes himself up at the first alarm of the clock is like a man who wakes himself up at the first alarm of the clock. The man who wakes himself up at the first alarm of the clock is like a man who wakes himself up at the first alarm of the clock.

Window Boxes of Flowers.

Of home decorations nothing has ever been so popular as window boxes. Window boxes that I had last season. They were made of pine, three feet in length, one foot in width and nine inches in height. Sugar Culture.

Sugar-cane produces no natural seed, but is propagated from cuttings planted in shallow trenches through the field two or three feet apart. The young plants, springing from the cuttings, are buried cane, and continue thus to grow for several years without new plantings. The cane is a piece of the cane, and continues thus to grow for several years without new plantings. OF GENERAL INTEREST.

—Emeralds are said to be the coming gems for gentlemen. —Baldness, some experiments recorded by the Edinburgh Medical Journal, prove that a man can grow his hair again. —A young man at Rome, Ga., died the other night of congestion of the lungs, caused by smoking cigarettes. —In a quarrel with a female Indian over one hundred years old, he earns his own living by working on a boat two hundred years old. —Timed of his New York residence at Howard Place, Nev., placed a giant-powder cartridge in his mouth and exploded it, blowing his head completely to pieces. —It is said that elephants are taken on subscription by editors in India. This fact proves to the Cincinnati Commercial Advertiser that the press is powerful even in heathen lands. —A lightning bolt or fulgurite nearly seven feet long with a lateral branch, was recently found in Germany, formed by the fusion of the particles as the lightning struck.

Lost United States Bonds and Notes.

Of the \$10,575,000 past-due debt of the United States upon which interest has long ceased, and which had been provided for payment under the Appropriation schedule, less than one-half the amount, or \$4,879,800 consists of the 91 cent bonds called in by the Treasury in 1870, and which were due September. The further sum of \$3,943,000 in bonds of various issues have been outstanding from Treasury notes, war issues, from five to ten years and over. The loss of these Treasury notes during and soon after the war is not surprising, but that such large sums of one-dollar called in bonds should have been privately hoarded so many years after the interest had ceased is not a little remarkable. It is estimated that many of these bonds have been lost or misplaced or accidentally destroyed, and may never be recovered. The fractional currency used during the war and until subsidiary silver was substituted in 1876, worth \$1,000,000 in value, has been lost or misplaced or accidentally destroyed, and may never be recovered. Our Common Insects.

The squash bug (*Cercopis tritaenata*, DeGeer), also called *Hemiptera*, family Coreidae. These insects, in various stages of their transformation, are very much alike from age to perfect imago. Those of the imago are called *Cercopis*, and are not trouble in identifying them from those of their forms. The imago live under the bark of trees, and are often found in wood-piles, often in buildings. As soon as the squash and pumpkin vines appear, they begin to lay their eggs on them. Turned His Hair.

The oft-repeated maxim that actions speak louder than words has been exemplified in a pathetic manner recently in this city. A few years ago there lived in this city a man who was known as a miser. He was known as a miser, and he was known as a miser. He was known as a miser, and he was known as a miser. He was known as a miser, and he was known as a miser.

Hos. J. Proctor Knott, our nominee for Governor, is one of our very few Kentucky statesmen known to National fame, and is a statesman in the true sense of the word—every inch of him. He will, as a presiding officer, so rule that no Kentuckian will regret his selection to that high and important office.

Capt. J. H. Hindman, the nominee for Lieutenant Governor, is an ex-officer of the Federal army who served with distinction, is a life-long Democrat, and one whose labors told more in carrying the 11th district in the election of Gen. Frank Wolford as a Democratic Congressman than any other worker in the party. Capt. Hindman is a solid man, and will never reflect other than great credit on the State.

Preachers and Politics.

At the Republican Convention held here on Saturday last was four colored preachers and one white preacher, who made themselves conspicuous by dabbling in politics and making political speeches. It is expected of preachers that they will exhort their flocks to do right and that they will do this by example as well as by preaching. Preachers who are politicians are unfit to minister to the mind and morals of their congregations. Such blood-hounds of Zion do the country more harm than good, and had better be working in the vineyard of the Lord than at political meetings.

The Southern newspapers are not unanimous about the Thompson-Davis killing. The Memphis *Scimitar* says:

"Davis was a gentleman and an honorable man, who had known Mrs. Thompson from his childhood, being sixteen years her junior, and that he had shown her friendly courtesies and had treated her in all respects as if he had been her younger brother. A conniving, evil-hearted and poison-souled woman filled Thompson's brain with slanders and falsehoods against his wife, and instead of trusting her, and driving her traducer from his presence with scorn and contempt, he accepted everything he heard as true, and without giving his wife a chance for explanation and without even notifying Davis of his alleged misconduct, met him and murdered him."

Gov. Luke P. Blackburn made a speech at the State Convention on Wednesday, during which he said that he was not a candidate for anything and never intended again to be, and was greeted with loud cheering. He also said: "If any man charges me with corruption, he is a liar and an infamous liar." The delegates were so bored by him that whistling, hissing and numerous shouts came from all parts of the house to "Sit down!"

KENTUCKY is not alone in prominent cases of ruffianism. A party of picnickers coming into Cincinnati Sunday got into a general fight and five persons were dangerously, if not fatally, shot.—*Louisville Post.*

THERE has been no appointment of a Commissioner of Internal Revenue to succeed General Ramm, but there is an undercurrent of feeling in favor of the promotion of Assistant Commissioner Rogers.

THE holders of tickets in the Willard Hotel lottery will get twenty-two cents on the dollar. That is if no more claims are sent to the receiver.

W. C. Owens says he will be a candidate for re-election to the Speakership of the next Legislature.

In regard to the Harrodsburg homicide the State Journal says: "taking all the facts as they appear we think when the matter is thoroughly investigated it will be shown that Mr. Thompson is the victim of a designing woman and that his wife has been guilty of no sin further than that of intoxication and its consequent indiscretions."

PROPOSITION

The undersigned, a corporation created and duly and properly organized under the laws of the Commonwealth of Kentucky, respectfully request that as provided for by law the Honorable Court shall submit to the qualified voters of this (Bourbon) county at an election to be held on a day to be fixed by this Court, not less than thirty nor more than sixty days after the order thereof is made by this Court, the question whether this Court shall subscribe to the capital stock of the Paris, Georgetown & Frankfort Railroad Company, for and in behalf of this (Bourbon) county, the amount of One Hundred Thousand Dollars (\$100,000) of stock, upon the following terms and conditions, to-wit:

1. That said vote for subscription shall not be binding upon the citizens and property in that portion of this county embraced in what were the limits of the County of Paris as they existed under the act of March 5th, 1868, unless by law the same is binding upon the citizens and property of the county outside of said limits.

2. The sum to be subscribed to be paid in bonds of this county with coupons attached, signed by the County Clerk and the coupons to be signed by the County Clerk, alone, negotiable and payable to bearer in the City of New York, twenty years from their date, but redeemable at par and accrued interest at any time after five years from their date, at the option of the county, bearing interest at the rate of six per cent. per annum, payable semi-annually in the City of New York. Said bonds to be in denominations of not less than \$100, nor more than \$1,000; but none of said bonds are to be issued in payment of said subscription except as follows, viz: When said road is constructed, completed and trone and a train of cars run over the same from Georgetown, Kentucky, through or within one-half mile of Centerville to Paris, Kentucky, said bonds shall be issued and delivered to the undersigned for the one-third of said subscription, when a branch of said railroad shall be constructed, completed and trone and a train of cars run over the same from Paris, Kentucky, through or within one-half mile of North Middletown to the Elizabethtown, Lexington & Big Sandy Railroad, said bonds shall be issued and delivered to the undersigned for one-third of said subscription, and when said branch of said road shall be constructed, completed and trone and a train of cars run over the same from Elizabethtown, Lexington & Big Sandy Railroad to the Wolfe county line, said bonds shall be issued and delivered to the undersigned for one-third of said subscription. And for the amount of all such bonds so issued and delivered to the undersigned in payment of said subscription the undersigned shall issue and deliver as provided for in its said act of corporation, approved March 23, 1871, the same amount in certificates of full paid stock in the undersigned.

3. That the undersigned guarantee the completion of the hundred miles of its proposed road, extending from Frankfort, Kentucky, through Georgetown and Paris, and then to Wolfe county, Kentucky, shall be delivered to the undersigned at any time after the completion of said road, at a cost not exceeding 12 cents per bushel.

4. That in the event any section of the said road, upon the completion of which bonds are to be issued and delivered under the proposition, is not completed within two years from the date of the subscription by this county as herein asked, so much of said subscription as depends upon the completion of said section shall be forfeited and no bonds issued in payment thereof.

5. In the event the proposition is submitted to the vote of this county the said subscription shall operate as a release and easer of any right and all rights that the undersigned has to the subscription heretofore by this county to the Frankfort, Paris & Big Sandy Railroad Company or to this Company.

The High-Bred Trotting Stallion

GOLDSMITH,

By RYSDYK'S HAMBLETONIAN

His dam, Lady Hume, by Imported Trustee, (thoroughbred.)

Will make the season of 1883, at my stable, at Millersburg, Ky., at

\$25 To Insure a Living Colt.

Money due when the mare foals or is parted with. No other horse in Kentucky of equal breeding and merit stands for less than \$50.

GOLDSMITH is a rich brown, heavy mane and tail, 15 hands, 3 inches high, strong bone, fine action, remarkably good disposition and sound in every particular. His colts are uniformly large, smooth and well gaited. He was sold by Mr. Alden Goldsmith when a colt to D. B. Haight, Dover Plains, N. Y., and owned by him until sold to me.

Mares from a distance kept 30 days, on grass, free. No responsibility for accidents. Also one of the best

YOUNG BLACK JACKS

In Kentucky, 15 1/2 hands high, will serve mares at TEN DOLLARS per season, at TWENTY DOLLARS for living colts. No variation in price.

Given retained all colts of horse and jack until season money is paid.

Alex. McClintock, MILLERSBURG, KY., Apr. 2, '83.

ATTENTION, HORSEMEN!

We call the attention of the farmers and breeders of horse stock, that I breed at my place, horses for beauty and symmetry as well as for trotting purposes. If a careful inspection is due to the sire and offspring of any horse, I would then most respectfully call attention to Callan and his offspring—some ten or twelve of which can now be seen at my stable. Callan will be permitted to serve a limited number of mares the coming season, offered by first-class men, (no others need apply,) at \$25 to insure.

Callan has a record of 2:34, and in the opinion of such horsemen as Dr. L. Herr, he could have trotted as well or better than 2:30 on the day which he has record. Two of Callan's yearling colts showed better than a four minute gait on my indifferent track last spring.

I will call the attention to the fact that Mammoth Grey, with the Pilot and Clay cross, has produced some of our most noted horses. I breed for speed as well as sixteen-hands high horses, high style and rangy.

Callan is the s.r.o. of Cyclone and Coaster, both with records better than 2:27.

W. S. BUCKNER, Cause County, Ky.

STANDARD BEARER.

This celebrated horse will make the season of '83, at my stable, three miles from Millersburg and six from Paris, on the Jackson pike, at Ten Dollars The Season, or Fifteen Dollars to insure a living colt.

STANDARD BEARER is a bay, foaled 1867; fifteen hands and three inches high; by Volunteer, sire of the famous Hamilton Chase; Volunteer, by Kyaw's Hambletonian.

Like all the sons of Volunteer, Standard Bearer is proving himself a fine stock horse; his produce being largely, if not entirely, first-class.

Also, my three-year-old youngjack, Lord Wellington,

15 hands and 1 inch high, good bone and length, will stand at Ten Dollars to insure a living colt.

Money due in both cases when the colt comes or mare parted with—a lien retained on the colts until season money is paid.
